

Maths digital platforms

You can log onto the following websites by clicking the links below. For now, you can access and complete any of the tasks you like, in the coming weeks assigned tasks will be given.

Method Maths

This is available for all years but we strongly encourage year 9 and 10 pupils to use this website.

This website allows you to access GCSE style maths questions and complete them online. You can choose to complete KS2, Foundation or Higher questions, by choosing in the top right-hand corner or your screen. This website will also mark the answers straight away and give you instant feedback, plus your teacher can see what you have completed.

Mangahigh

This is available for all years but we strongly encourage year 7 and 8 pupils to use this website

This website is games-based to help you develop your maths in a fun way, you can log on and choose to practice any maths skill you choose. A key focus for year 7 at the moment is fractions, decimals and percentages. A key focus for year 8 is probability, ratios and sequences. You can search for these or other topics on the website. Please try some of the games and have some fun with it. Assigned work will be set in the next few weeks.

TT Rockstars

This is available for all years but we strongly encourage year 7 and 8 pupils to use this website

This website is competition and time trial based, its sole aim is to develop speed and accuracy with times tables. You can log in and complete as many practice and different competitions as you like. The more you complete the more points you get and you can upgrade your character from these.
