

South Shore Academy
BRIGHT FUTURES EDUCATIONAL TRUST

Dear Parent/Carer,

During the last half term South Shore Academy has launched Class Charts as an online home learning platform. Class Charts can be accessed on a desktop/laptop computer or alternatively can be downloaded as an app to any smart device such as phones or ipads. This platform enables work to be set for students to complete when not in school. Students can also submit completed work back to teachers, allowing for feedback and hopefully giving students more opportunities to make progress in their learning. We will be using Class Charts for online home learning only.

Students have been issued passwords for Class Charts which they need to use to login along with their date of birth. This platform is now where all home learning will be published. The exception will be for students who have informed us that they do not have access at home to the internet. For these students' hard copies of work will be provided. There is an aspect of Class Charts for parents and a separate app called 'Class Charts for parents' that can be used. If you wish to receive your parents access code for this, then please contact us on the email below. Similarly, if there are any issues with completing online learning then this email address can be used to alert us and we can respond appropriately.

If there is any more information you need or if you wish to receive the parents access code please contact the school on the email RemoteLearningSupport@ssa.bfet.uk.

To access Class Charts please use this link www.classcharts.com or download the app.

Kind regards,
